ABOUT ME

As a full stack developer, I am a naturally curious individual who thrives on learning new technologies and tools. My energy and enthusiasm for teamwork drive me to collaborate effectively with colleagues and stakeholders. Even in my free time, I am dedicated to self-improvement, as evidenced by my studies at the university. Outside of work and studies, I enjoy exploring new places through travel and maintaining a healthy lifestyle through regular exercise."

WORK EXPERIENCE

2015 - 2022

- Analyzed market trends and forecasted potential shifts in market conditions to make informed trading decisions.
- Managed positions to maximize profitability while minimizing risk.
- Conducted research and analysis of market data to support trading decisions.

Trader
